Czar's Troops Are Preparing to Resist a Japanese Advance By Fortifying on the Manchurian Side of the Yalu River.

St. Petersburg. April 23.-Vicerov Alexieff's announcement of the destruction of a launch and the loss of 21 men by the explosion of a Russian torpedo at Port Arthur has added to the gloom which prevailed since the disaster to the Petropavlovsk.

"We are paying the price of carelessness," said a member of the admiralty, "and previous disasters seem to teach nothing." The war commission suppressed part of the viceroy's dispatch which showed where the mines were being laid. It is believed that as launches were employed they were mining the entrance to the harbor in order to prevent the Japanese from forcing an entrance and attempting to destroy the remaining ships.

It is evident from the closing of the entrance that Viceroy Alexieff has no intention of letting his ships to sea again even against an inferior force. though this may not be the policy of Vice Adm. Skrydloff, who will determine on a plan of opposition when he assumes command.

St. Petersburg, April 23.—The fol-

the opposing lines, it is understood, now skirt the two banks of the river. Shanghai, April 25.—Fearing a possible attack, the Chinese officials have decided to remove the Shanghai arse nal to Wu Hu, an inland town about 150 miles west of Shanghai. It is estimated that the entire cost of moving the arsenal will reach three million New Chwang, April 25.-The Rus-

sians are preparing to resist a Japan-

ese advance by the further construc-

tion of intrenchments and other fortifications on the Manchurian side of the river, especially opposite the points where the Japanese have concentrated their forces within the last few days, and all reports of decisive engagements on the Yalu are premature. London, April 25.—The far eastern dispatches Monday morning are chiefy concerned with reports and speculations concerning Japanese landings and the plan of campaign. The Telegraph's Tokio correspondent says the present delay is more apparent than real, both as regards field and naval operations. The Japanese, according to the correspondent, are acting prudently and will not be hurried. They realize that certain movements must precede the next coup by land and sea, and they are awaiting both favorable

A Total of Over 1,400 Bills Became Laws.

In the Senate There Were 5,645 B.ils Introduced-One Senator and Seven Representatives Died During the Two Sessions.

Washington, April 25.-The important legislative accomplishments of the sessions of the 58th congress were confined to two subjects-Cuba and Panama.

The senate ratified the treaty negotiated with Cuba to carry out the terms of the Platt amendment. It also satisfied the Chinese commercial treaty which provides for two open ports in Manchuria.

Chairman Hemenway, of the house committee on appropriations, in a statement complled under his direction, gives the total of all supply bills (subject to light changes in pending bills) as \$597,802,324, to which must be added \$84,791,820 for interest on the public debt. The estimated reveweather and occasion, and from Port nues are \$704,472,060. By these fig-Arthur to Vladivostok are on the alert. ures the expenses are \$22,000,000 less than the revenues. The estimates of the various government departments on which the appropriation bills were based exceeded the total estimated revenues by \$42,845,862.

While a total of over 1,400 bills became laws during the two sessions, less than 150 of them were "public" bills, and of this latter number, onehalf simply authorized the bridging of rivers, the damming of streams, the regulation of federal courts, and the ordinance of the District of Columbia. It was made a crime to "crimp" sea-

men of the United States, by soliciting them as lodgers or charging a fee for shipping them.

The only general pension legislation which became a law makes the pension of those who lost their sight in the military or naval service \$100 per nonth. Agitation for a service penion bill resulted in the introduction of many such bills. It was decided, however, that no such action should be taken at the present session, after which the general order making age an evidence of physical disability to perform manual labor was issued by the secretary of the interior and recognized by congress in a deficiency appropriation of \$1,500,000 to make it ef-

SUFFICIENT IDENTIFICATION.

Woman After Pension Gives Personal Peculiarities of Her Soldier Father.

Representative Cowherd of Missonri has a constituent, an aged woman, who has been trying to get a pension because her father had been a solider, she was not sure in just wha war. At first, says the Washington Post, she was inclined to believe he had fought in the Mexican war; then she dropped back to the Seminole war, and finally decided it was in the war of 1812 he had served. On a nunster roll of the latter war she found a name that corresponded with that of her father, but did not furnish Mr. Cowherd any positive means of identification.

Mr. Cowherd notified his constituent that it would be necessary to identify her father before a pension could be granted, and in response the soldier's daughter wrote!

"My father was of medium hight, had a constituent, an aged woman, who has

Miss M. Cartledge gives some helpful advice to young girls. Her letter is but one of thousands which prove that nothing is so helpful to young girls who are just arriving at the period of womanhood as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINEHAM: —I cannot praise Lydia E. Pinkham's Vegetable Compound too highly, for it is the only medicine I ever tried which cured me. I suffered much from my first menstrual period, I felt so weak and dizzy at times I could not pursue my studies with the usual interest. My thoughts became sluggish, I had headaches, backaches and sinking spells, also pains in the back and lower limbs. In fact, I was sick all over.

" Finally, after many other remedies had been tried, we were advised to get Lydia E. Pinkham's Vegetable Compound, and I am pleased to say that after taking it only two weeks, a wonderful change for the better took place, and in a short time I was in perfect health. I felt buoyant, full of life, and found all work a pastime. I am indeed glad to tell my experience with Lydia E. Pinkham's Vegetable Compound, for it made a different girl of me. THRO' KENTUCKY.

Thro' the grand state of Kentucky, Where the "Old Home" got its name, Where the fields are overflowing With the yellow ripening grain.

Here tobacco plants are growing, In the fields not sown with corn, Tobacco plants-big as cactus-Just as sure as you are born.

Yes, they're large as good-sized cactus, Larger in our home-like view, But it's of a fine a grade as Is that old "Kentucky Dew."

Here all people reap a harvest, Money in bank from year to year, All the green calamity howlers, Lose their jobs when they land here.

Here the "dry" ways are the highways, Built high and dry from rains and flood. Here the "good roads delegation," Swear the roads are sutt'nly good.

But of pikes and highways finest, There's a "road" that suits my taste; Tis the line of Solid Comfort, And the trains let no time waste.

From Kentucky to St. Louis, Operates this road of class, Across the famous old "Green River" On its roadbed smooth as glass.

Would you know the road I speak of? Listen then to my advice, For you'll need it in your business, On your trip to Paradise.

In your travels to St. Louis-Hustle; beat them under the wire, "Get the 'Henderson Route' habit"-'Tis a good one to acquire.

Judge Denny's chances were knocked into smitherines by Dr. Hickman, our colored physician and orator, who in his speech said that Judge Denny had once remarked, "the negro was a mill-stone around the neck of the Republican party;" now let's put that mill-stone around Denny's neck. It was put there in good style by the colored brethren, for after Hick-man jumped, the whole drove went over

he hurdle. A few respectable white Republicans and one or two renegade white Democrats and a large and enthusiastic crowd of negroes filled the hall to suffocation.

SERIOUSLY ILL.-The Maysville Bulletin of yesterday, says: Mr. J. H. Wallingford, of Paris, who has been visiting Mr. and Mr. C. D. Russell, last evening received a long distance telephone message stating that his wife was very seriously ill and would have to undergo a delicate surgical operation this morning. He left on the early train.

Called Off.

The annual State Fireman's Converon, which was to be held in Lexington, n May, has been called off, due to the act that the President of the organization, Geo. W. Muir, will not be in office at that date. Chief Muir was to have been the host of the occasion, but his dismissal rom office by the Police and Fire Commissioners stopped the proceedings. Secretary Edw. Hite, of this city, after a corsultation with 'Chief Smitl, of Danville, decided that under the circumstances the convention could not be held this year.

The Contract With the French Canal Company Signed.

Paris, April 23.—The contract by which the ownership of the Panama canal passes to the senate has been signed, sealed, delivered and is complete. The title to the canal route is now vested in the government of the United States.

The document by which this transaction is consummated bears the signatures of President Bo and Director Richman, of the Panama Canal Co., who signed for the company as its responsible officials. The transfer is complete and without reservation and the United States secures a perfect title. This result has been accomplished quietly and most unexpectedly, as the public had been given to understand that the contract would not be executed until after the meeting of the stockholders of the Panama Canal Co. Saturday, at which the question of ratification would be presented.

It is confidently believed that the completion of the sale before the mecting will increase the vote for the ratification, as it will be recognized that nothing more remains but to acquiesco in the action taken by the highest off. cers of the company.

When W. A. Day and Charles F. Russell, the United States assistant attorneys general, who are in Paris to assist in the transfer of the property, were seen Friday night, they reluctantly admitted that the transfer had been consummated, and in order to avoid misunderstandings regarding a transaction of this magnitude they furnished the following official statement in writing:

"The papers transferring the rights ready been executed and delivered. They will be ratified Saturday afternoon by the stockholders' meeting.

"The arrangement includes a general conveyance and provisions for deeds and resignation in the republic of Panama and in the canal zone now under the jurisdiction of the United States in which zone the civil law continues in force by reason of the session of the zone from a civil law sovercignty. All formalities of the local law on the isthmus have been arranged for and secured to these United

FIXING PRICE OF POETRY.

The Only Way of Deciding What the Real Article for Magazine

Use Is.

The great magazine editor was wrapped in thought and cigar smoke. To him came an assistant editor with a poem, relates the Chicago Post.

"This seems to have passed the usual et," said the assistant.
"Have I read it?" asked the editor,

"Was I able to make anything of it?"

"Then accept it, of course." "But how much shall we pay for it?"
The great editor increased the cloud of thought and cigar smoke.
"Have you read it?" he asked, at last.

"Were you able to make anything out

"Could any of them make out what the poet was driving at?"
"Well. Robinson thought he got a glim-"Well. Robinson thought he got a glimmering idea of the underlying meaning."
"That takes \$10 off the price," said the editor. "Just figure it up according to the usual method—\$10 added for every man who couldn't understand it and \$10 deducted for every man who could. We've got to pay good prices for good poetry, and there is only one way to decide what has real magazine merit."

How to Keep House.

With all the luxuries and pleasures of this life, its big enjoyments and its smaller comforts, there is an offset or antithesis which we have to contend with in the form of aches and pains. In some way and by some means every one has a touch of them in some form at some time. Trifling as some of them may be, the risk is that they will grow to something greater and rack the system with constant torture. There is nothing, therefore, or this kind that we have a right to trifle with. Taken in time, the worst forms of aches and pains are easily subdued and cured by the free use of St. Jacobs Oil.
